

Per the CC&Rs, the garage should be utilized to capacity for vehicles. The driveway can be used for overflow or guest parking. If "both the garage and driveway" are full of vehicles, then the homeowner may request a temporary parking permit for any guests visiting who would need to park on the street. To request a parking permit for a future visitor, please fill out the form with the visitor's vehicle information and it must be submitted by the homeowner at least 24 hours in advance during business hours.

GUEST PARKING PERMIT REQUEST FORM
